COTTON RATES ADJUSTED. Vice President Finley of the Southern Makes a Statement.

Vice President Finley of the Southern Railway Company makes the following statement in connection with the arbitra-tors' decision in relation to rates on cotton to mills in North and South Carolina:

Atlantic Coast Line met with much opposi-tion on the part of the other transportation lines interested in the cotton tradic from Aussissippi, Ausbama and Tennessee, and led to the adoption by such lines of reduced rates to Guif ports and to the East from competitive mains to counteract required.

led to the adoption by such lines of reduced rates to Golf ports and to the East from compositive points to counteract reductions made by the Sonthern Railway and Atlantic Coast Line to the Carolina milis.

"The question was linally submitted to arbitration and the arbitrators, Massra. S. R. Kn.tt, tormerly vice president of the Louisville and Nasaville Railroad and Plant System, but now president of the Railway and Arlantic Coast the Mobile and Eirmingman Railroad Company, and are president of the Anbama Consolidated Coal and Iron Company, have now announced their decision on this important case.

"The rates fixed by the arbitrators involve, in some cases, advances from the rates issued by the Southern Railway and Atlantic Coast Line. In some of these cases the advances are slight; in other cases, motably Meridian, Miss.; Florence, Sheffled, Tuscambia, Lecatur and Huntsville, Ala, the rates issued by the Southern Railway and Atlantic Coast Line are confirmed.

"To the manufacturing points in North Carolina, east of Charoote, the arbitrators have confirmed a differential rate of 5 cents per hundred pounds higher than the rates to points in what is called the South Carolina froup' mentioned above.

"Owing to the isrge interests involved, this question has attracted considerable attention, and it will doubtiess be gradifying to the Southern conton manufacturers to know that the result of the arbitration has been to give them a much better adjuntment of rates than they have enjoyed in the past."

The most important recommendation in the annual report of the Massachusetts Railroad Commissioners for the iscal year ending June 23, just issued in Foston, is that the railroads of the State be required to issue mileage books, good for 300 miles, at the rate of 2 cents per mile. In its careful discussion of this question the board presents statistics of the passenger business and statistics of the passenger business and revenue of the Fitchburg and Boston and Albany for the past ten years to show the yearly course of passenger travel and re-

Albany for the past ten years to show the yearly course of passenger travel and receipts.
